# Young Finances on YouTube

Hi! It's LaTisha from YoungFinances.com.

You might know me from Youtube or recognize my smiling face from Twitter, or maybe you've even seen me stretching before a run.

However you found me, I'm so glad you're here. My goal is to help you become a financial success. I had to learn about finance the hard way when I ran up and subsequently paid down 22,000 dollars worth of credit card debt.

I'd like to make it easy for you to learn how to manage your finances. Which is why I've created the Young Finances Toolkit.

In it, you'll find tools to help you create a simple budget that you can stick to, a quick start investing guide, and tips to motivate you towards financial success.

Ready to get started? Head over to YoungFinances.com/toolkit and get your copy.

Finally. A simple way to manage your money. Budget. Invest. Achieve Success.
